ERRATA SHEET: JADE Z80/Z80A KIT

Make the following additions to the parts list, page 25, of the Z80
assembly manual.

A.)   The value of Resistor Paks IC2, IC16, IC32,
      and IC38 should be marked 1.0K.

B.)   The value of Resistor Pak IC35 should be
      marked 4.7K.

SK:

ITHACA AUDIO Z-80 CPU BOARD

Revisions schedule

Rev. 0   Initial release

Rev. 1   Edge connectors lines 18 and 19 inter-
          changed. Line 18 corrected to chip
          22-9; line 19 to chip 7-1.

Rev. 1.1 RClk changed to $\overline{RClk}$ U17-10 used in-
          stead of u17-11.. This improves reset
          jump operation.

Rev. 1.2 Data received on the data in bus is no
          longer placed on the data out bus. This
          prevents the possibility of ringing on
          the data busses caused by crosstalk.

Rev. 1.3 The pins and polarity of refresh have
          been changed from line 67 to line 66
          to correspond with Bus standards.

Ithaca NY 14850

Dear Customer;

The Z80 Board you are receiving is 1010
revision 1.3. Make no changes, the pc layout
of this board incorporates all updates and changes
including revision 1.3.

The present schematic has not been up-
dated. A new schematic will be available in
the next month.

Thank-you for your time and consideration.

Sincerely,

Mary Ann Reeter
